

AIMS All Employee Learning Now Available

In our modified approach to the AIMS All Employee Learning, we have created a 60-minute recording of the information in response to Manager input that it was inconvenient to have employees scheduled for a particular session. Employees should still watch the video during paid work hours when it proves to be operationally feasible.

Additional Q and A sessions will now be available to employees for questions that they may have after viewing the All Employee Learning video.

- The All Employee Learning video can be found posted under Important Links in [MyConnection](#).
- Additional resource information can be found in the MyConnection MyKnowledge Library. Search by the topic you wish further information on.
- Go to MyConnection > AIMS Learning Calendar to register for an All Employee Q and A sessions.

Employees may attend as many Q and A sessions as required.
