

Supply Chain and Accounts Payable (Finance)

AIMS Learning Available Now!

The Administrative Information Management System (AIMS) learning modules for all employees who work in Supply Chain and Accounts Payable (Finance) have now been released!

Employees should go to [MyConnection](#) > MyLearning > Access MyLearning to view the modules. Course names will begin with either "SCM" for Supply Chain or "FIN" for Finance.

After completing the modules, employees may register to attend any of the drop-in Q and A sessions, should they have further questions, by going to MyConnection > Important Links > AIMS Calendar for Learning Sessions.

If your employees do not see these modules, please submit an inquiry on their behalf, through MyConnection > MyLearning > Questions about MyLearning, indicating that they need to access either the SCM or FIN courses.

Please watch for further communications as more AIMS Learning modules are released.
