

The Administrative Information Management System (AIMS)

## ***AIMS Brings a Change to Department Names***

Employees entering AIMS may see a department name that is different from what their department had previously been named. With the change to the Chart of Accounts, department names also changed. If you have questions about the department name that you are assigned to, please refer to the AIMS Chart of Accounts tool. This tool will allow you to connect your former department name with your new department name:

MyConnection > MyServices > Finance > [Legacy to AIMS COA Mapping \(tile\)](#)
